

DESCRIPTION

EC1119SM Template

DIMENSIONS

9.3" X 26.375"

The design elements in your file should fill the entire area of this template, including the outer blue border.

The **outer blue border** indicates the portion of your art which will be hidden under the top, side and bottom channels of the ErgoCan® container once the printed panels are assembled into its frame.

The **green dashed line** indicates the “Text Safe Zone.” No text elements should extend beyond it toward the outer blue border.

When art is completed, delete this template layer (or simply turn it off in the layers panel) so that it is not visible before saving your file in PDF format.

Be sure to carefully review the resulting PDF before uploading to ensure that the text and art elements are as you intended them to be. The final printed panel will appear just as the PDF appears on your screen—aside from subtle color shifts, as all monitors are not calibrated similarly.
